

Dear Mr. Ingraham:

It was a pleasure to meet with you and discuss your impressive and inspiring Breast Cancer Awareness Book project.

Your concept is refreshing and will offer people the opportunity to realize through photos and stories that breast cancer can impact many walks of life in many different ways. It is so important to share as much knowledge as we can to educate the patients that they are not alone and the importance of early screenings and detection for other family members and friends. Your book featuring artistic and appropriate photos of women who have breast cancer along with their stories shows that with early detection a patient can live a fun life and have their fear alleviated.

I wish you success on your publication.... if I can be of further assistance please do not hesitate to contact me.

Sincerely,

Ella M. Kelley

Radiology Coordinator
